MEMORANDUM FOR: Deputy Director for Support

Dear Jack:

On 1 August 1972 and in connection with the D/L "Report on Agency Procurement for FY 1972" to the Executive Director, you asked the Executive Director if it were his intent to have the D/L participate in the Comptroller's monthly meetings. The Executive Director replied that D/L should attend the first two or three times and then they would see what would happen.

Having heard no more on this matter, I inquired of Chuck [redacted] on 6 September concerning the "Comptroller's meetings," i.e., what was it, the format, the scheduling, etc. [redacted] initial immediate response on the Comptroller's meetings was a "mystical future abstraction." He then elaborated as follows. PPB had previously developed a monthly financial trend report which they formerly reviewed with Colonel White. Colby didn't like it and put SIPS to work developing a new and different reporting format. According to Briggs, SIPS had some difficulty in meeting Colby's desire and, as yet, there is no data base available. [redacted] states it is his understanding that SIPS will produce the first monthly format about the 20th of September and, hopefully, a Comptroller's meeting will be called shortly after that. STAT

As always, I will keep you posted.

Bill:

It is not clear to us in reading the references whether you intend to have the Director of Logistics a regular participant in the monthly Comptroller's meetings. I would hope and urge that you do so particularly since he is necessarily the expert and source on most of the information on contracting and procurement which you intend to cover in such meetings.
